INDEX

| | |
|---|-----|
| SELÉNYI, E.: Balancing Properties of Current Comparator Capacity Measuring Network | 1 |
| CSANKY, L.: New Exclusive-Or Circuits Using Controlled Transistor Inverters | 17 |
| SZABÓ, Á.: Durch Zweikanal-Stereophonie hervorgerufene Richtungsempfindung in allgemeiner Versuchsanordnung | 27 |
| WESTSIK, Gy.: General Model of an Information System for Controlling Complex Organizations | 47 |
| CSÁKI, F.—KIS, P.: An Engineering Method for Process Identification | 73 |
| SZÜCS, B.—MONOS, E.: Circulatory System Analysis by a Stochastic Method Using an Analogue Correlator | 91 |
| KOVÁCS, T.: An Algol Program for Generating Root Locus Diagrams | 105 |
| DOMONKOS, S.—MADARÁSZ, Gy.: Elimination of the Contact Bounce Phenomenon | 121 |
| CSANKY, L.: A New Not-And-Exclusive Or Gate | 137 |
| SIMONYI, K.: Eine experimentelle Entscheidungsmöglichkeit der Kontroversen über die Deutung des Poyntingschen Vektors | 143 |
| VÁGÓ, I.: The Calculation of Transmission Networks with the Aid of Graph Theory | 155 |
| КОЧИШ, Я. Алгоритмы одномерного адаптивного экстремального регулятора | 169 |
| GAZSI, L.—SELÉNYI, E.: Toleranzprüfung aktiver RC-Filter in Doppel-T-Schaltung | 181 |
| RÁCZ, I.—BORKA, J.—LUPÁN, K.—MIKLÓS, D.: Quasi-Periodic Dynamic Behaviour of Piecewise Linear Multi-Parameter Systems | 205 |
| SZILÁGYI, M.: Electron Motion in a Stationary Axially Symmetric Magnetic Field Varying Linearly along the Axis | 221 |
| KOVÁCS, K. P.: Résultats acquis et tendances de la recherche dans l'industrie hongroise de l'énergie électrique | 235 |
| BLEYER, A.: On some Generalizations of the Isometrical Mappings and their Applications (The Method of Iteration) | 257 |
| SZTOPA, Gy.: Elimination of Errors Due to the Length of Electric Resistance Type Strain Gauges | 275 |
| TÓTH, E.: A New Method for Earth-Potential Balancing of A. C. Bridges | 287 |
| КОЧИШ, Я.: Экспериментальное исследование устойчивости адаптивной экстремальной системы | 303 |
| GESZTI, O. P.—REGULY, Z.: Investigations on Simultaneous Operation of a Cluster of Circuit-Breakers | 311 |
| VÁGÓ, I.: The Calculation of Stationary State Transmission Line Systems by Topological Methods | 325 |
| CSANKY, L.: A New Map Method for Simplifying Functions Given by EXCLUSIVE OR and AND and Inverter Operations | 341 |
| ARATÓ, P.: Some Theorems for a New Synthesis Method in Threshold Logic | 345 |
| ROMÁN, Z.: Enterprise Behaviour in Industry | 351 |
| Book Review | 369 |
